About Our Company

Şencam was established as a small workshop by Recep Karakurt in 1972. Şencam, which started its first glass production in its production plant in Bakırköy Osmaniye, was moved to the 1300 m2 production facility in Yenibosna, where it is still working in 1990, upon increasing demands. It started to produce more modern and higher quality glass with the transfer of its activities, which started under the leadership of Karakurt, to the leadership of Ercan Karakurt in 2000. In order to better respond to the increasing customer potential with the increase in quality and service understanding, in 2004 ŞENCAM CAM KOZM.İMAL.SAN.VE TİC. LLC. started to be called by its name and increased its capacity even more and moved to its new headquarter & warehouse which has 15.000 m2 capacity.

Şencam is honored to serve its customers with its expert staff that always prioritizes quality.
